## FATHER A PATTERN

BOYS LOVE MOTHERS, BUT IMITATE FATHERS, SAYS COLBERT

## THE EVILS OF TOBACCO

Fisher Explained Effect on System—Athletics as Viewed by Superintendent and President.

The open session of the Mothers' circle at the high school auditorium Tuesday night was not largely attended, owing to the disagreeableness of the night, but there was a good attendance and the program presented was instructive and enjoyable.

The music was a fine feature. The Maryville orchestra gave four excellent numbers and surprised everyone who had not heard them by their good work.

The solos by Miss Lillian Lindholm and Mrs. F. P. Robinson were very pleasing, as they are among Maryville's favorite singers. Miss Lindholm's contralto voice showed well in her selection, "There is a Land Where the Sinner Hath Rest." Mrs. Robinson gave of her sweet lullaby songs, "When Ammy Rocks Her Little Pickle to Sleep."

The president of the Mother's Circle, Mrs. Eugene Ogden, then spoke a few minutes on "Why a Mother's Circle in Maryville?" giving its aims and purposes briefly as follows: and she also told of the few things the circle had attempted during the year of its existence, and was planning to do, which will be told at a later time:

To carry the mother-love and other-thought into all that concerns touches childhood in home, school, church or state; to raise the standards of home life; to develop wiser, better trained parenthood; to bring to closer relation the home and the school that parent and teacher may cooperate intelligently in the education of the child, bring systematic earnest effort to this end through the formation of mothers' clubs and parent-teacher associations in connection with public schools and elsewhere.

To promote the establishment of kindergarten and of laws which will equitably care for neglected and dependent children; to secure such legislation as will insure that children of tender years may not be tried in ordinary courts, but that each town shall establish a juvenile court and special officers whose duty it shall be to care for the child that it shall be rescued from, rather than confirmed in evil ways.

To work for such probationary care of individual homes rather than institutions.

To give young people, ignorant of proper care and training of children, opportunities to learn that which will enable them to better perform the duties of parenthood.

To promote high ideals of marriage and the maintenance of its sacredness and permanence.

To interest men and women to cooperate in the work for purer, truer homes, in the belief that to accomplish the best results, men and women must work together.

To rouse the whole country to a sense of its duty and responsibility to childhood.

To surround the childhood of the whole world with that loving, wise care in the impressionable years of life, that will develop good citizens, instead of law breakers and criminals. The work of the congress is civic work in its broadest and highest sense, and every man or woman who is interested in these aims is cordially invited to become a member and aid in the organized effort for higher national life, which can only be attained through the individual homes.

Dean G. H. Colbert of the Northwest Normal was the next speaker. His subject was "The Father's Responsibility to the Home and Children." A sentence from a sermon he heard a few years ago had made him think a great deal on that subject, he said, and it was this: "The boy loves his mother, but he imitates his father."

Boys seem to disregard their mother in the years they are reaching manhood and trample on her wishes and feelings, but in later years the tenderest expressions of which they are capable are spoken of her. The boy does not always imitate his own father, for it often happens that a good father has a bad son, but the boy imitates the fathers of his own town and neighborhood. Mr. Colbert said that he had been made to know in many ways that he and every other father were not models for their own sons alone, but some boy or boys whom they may not even know are watching them and are being controlled in their actions by what they believe them to be. He told of a boy he had in school once, in the eighth grade, who would not practice his writing lessons. The president of the school board had insisted on the teachers being strict in that study, and told them they were the models in writing for their pupils. This one boy was the only one who refused to practice writing. Mr. Colbert asked his reason for being so stubborn about it, and he said that he expected to have a typewriter some day, and then everybody could read what he had to say (the boy was a miserable scribe), and added: "It isn't necessary for me to write well, because some business men can't write well, for I saw a letter written by Banker So-and-So, and he's the president of our school board, that nobody could read unless he knew what he was trying to say and had read his writing before." The president of the school board was that boy's model, and he had no idea that any boy was watching him and trying to be like him in any way. Mr. Colbert said that the fathers fail to keep up with their boys, they do not progress and put away old things and take on the new with advancing civilization. It is easier to be a boy than it is to become a boy. Let us be a friend with our boys; be "in the gang" with them. In olden times the Spartan father was punished if his son committed a crime. Let us be so guardful of our duty and up to our responsibilities that we will not feel that we are to blame for the bad actions of any man's boy.

Prosecuting Attorney George P. Wright was not present to interpret juvenile laws, so Dr. A. T. Fisher, who was to lead the discussion, spoke on the evil effects of tobacco. He said there were between \$50,000,000 and \$750,000,000 worth of tobacco raised in this country every year, when it cannot be scientifically proved that it has any effect but harm on the human body. His explanation of its effects on the different organs of the body was instructive and entertaining. He said the universities and other schools of the country were noting the effect of tobacco on the students, and reports had been gained from them as to the difference it made in them mentally, morally and physically.

Superintendent Hawkins spoke briefly on the value of athletics, a word, he said, that was much abused, and advocated a sane system of exercises and sports that would aid in the education of the children and young people, for they cannot be said to be educated without the development of the whole person; that they may attain and retain that buoyancy and elasticity of spirit that is necessary to them and altogether natural, and comes to them from play on the play grounds. He advocated swings, teeter boards, basket ball and base ball. He said town ball and prisoner on the base could no more satisfy the present generation than the Continental dress and three cornered hat would the men of today.

W. A. Blagg, president of the school board, continued Superintendent Hawkins' subject on athletics, but in a different strain. He based his talk on some things he learned last fall in the orchard of William M. Howden of Skidmore, when he went over to buy winter apples for storage in his cellar. Mr. Blagg was surprised to find the apples fine and sound, as last year was a bad year for the apple crop, and there were very few who had good apples to put away for winter. He asked Mr. Howden how it happened that he had such good apples when no one else had them, and Mr. Howden told him that he was careful to cultivate around the roots of the trees, and that he had sprayed them five times in order to be sure that every insect was

## INTERESTED IN BOYS

DR. PUFFER IS TO DELIVER ADDRESS TO NORMAL GRADUATES.

## CLASS SERMON BY PARVIN

The Two Services for Spring Graduating Class to Be Held on May 19 and May 22.

President Taylor has indeed been fortunate in securing Dr. J. Adams Puffer, the eminent author and lecturer, to deliver the commencement address of the spring graduating class of the Normal on the evening of Wednesday, May 22. Dr. Puffer is a man of remarkably wide experience, having taught in country schools, high schools and reform schools, has conducted a summer camp for boys, worked as probation officer of the juvenile court, visited the leading reform and industrial schools of the United States and England, and is director of the Beacon Vacation Bureau of Boston, Mass.

Rev. W. J. Parvin, pastor of the M. E. church, South, will deliver the class sermon on Sunday night, May 19.

## TO START FOUNDATION WORK.

Excavating Work Will Be Finished in Another Week or So—Sheds Are Being Put Up.

The excavating work on the new postoffice site will be finished by Saturday of next week, and then the foundation work will start.

Sheds were being built Tuesday and Wednesday to take care of the tools and machinery. A large cement mixer arrived Tuesday morning and will be used in the foundation work.

## Installation Services Tonight.

Rev. A. M. Reynolds of Albany and Rev. A. D. Selig of Grant City, moderator of the St. Joseph presbytery, arrived in the city Wednesday to take part in the installation services of Rev. S. D. Markness as pastor of the Presbyterian church, to be held this evening. Rev. Reynolds is the guest of Mr. and Mrs. W. J. Staples, and Moderator Selig is visiting with D. E. Hotchkiss and George Demott. Mrs. Selig accompanied Rev. Selig to the city.

## Will Hear London Orchestra.

Director P. O. Landon of the Maryville Conservatory went to Kansas City Wednesday morning to attend a meeting of the executive board of the State Music Teachers' association, of which he is president, and to make arrangements for the program for the coming state meeting in June in Kansas City. Mr. Landon will hear the great London Symphony orchestra tonight and return to Maryville Thursday morning.

## Dr. Taylor at Parnell.

The graduating exercises of the Parnell high school graduating class will be held at the M. E. church in Parnell on Saturday night, and the class address will be given by Dr. H. K. Taylor of the Maryville Normal. The class will give a play at the opera house on Monday night. The graduating class is composed of Blanche Bloomfield, Ruby Bishop, Anna Hall, Esther Klaas, Harry Simmons, Wilma Millikan and Merrill Anderson.

Miss Belle Leech returned to her home in Pickering Wednesday from a few days' visit with Maryville relatives.

## WILL TALK IT OVER

SPECIAL SESSION OF COUNCIL TO CONSIDER POLICE JUDGE MATTER

## COMMISSION TO MORRIS?

A Number of the City Dads Are Said to Favor Issuing a Commission to Claimant for Office.

A special meeting of the city council has been called for Wednesday evening by Mayor Arthur Robey to consider the police judge matter, and to see what action the city is going to take in case a mandamus suit is filed to make them issue the commission to Squire J. W. Morris.

Many on the board, it is understood, are ready and in favor of issuing the commission to Squire Morris, as they believe the police judge muddle should be settled and are of the opinion that since Morris received a number of votes at the last city election, being the only candidate out, that he is duly entitled to the office.

So far as it looks now everything seems favorable to Squire Morris getting his commission.

## PLAY WAS A SUCCESS.

"The Woven Web" Given by St. Mary's Choir Tuesday Evening Was Well Attended.

"The Woven Web," given by the choir of St. Mary's Catholic church Tuesday evening in the basement of the church, was a success and pleased the good sized audience present. Those taking part in the play were Misses Bertha Kirch, Anna Blatter, Theresa Yehle, Messrs. Anthony and J. W. Blatter, Noah and Paul Thompson, John Gross and Hubert Zech. Between acts singing specialties were given by Misses Theresa Yehle, Bertha Kirch, Alvina Herrick, Arline Helpley, Gertrude Kirch, with Miss Hilda Lehr at the piano.

## Emerson at Elmo and Clearmont.

Prof. R. H. Emerson of the state university at Columbia will deliver the class address to the graduates of the Elmo high school at the M. E. church, South, at that town, Wednesday evening, and to the class at Clearmont on Thursday evening.

The graduates of the Elmo high school are Misses Hazel Livengood, Zelda Hull, Myrtle Colvin, Fern Duncan, Ethel Tibbetts, Dorothy Lamar and Samuel Castillo.

## Pickering to Have Same Teachers.

The school board of Pickering met recently and selected the same teachers that have been teaching this year. They are George W. Summerville, principal; Miss Hattie Patterson and Miss Minnie Everhart.

The graduating class of Pickering high school will give their class program on Thursday evening, and the commencement exercises will be held Friday night.

## To See Maud Adams.

Mrs. H. L. Raines and little daughter, Laura Margaret, and Mrs. R. G. Sanders went to St. Joseph Wednesday morning. They will see Maud Adams in "The Chanticleer." Mrs. Raines will be the guest of her sister-in-law, Miss Theodosia Raines, and Mrs. Sanders will visit Mr. Sanders' parents, Mr. and Mrs. W. J. Sanders.

Miss Elizabeth Quinn and Miss Nellie Dieter of Clyde were in Maryville Wednesday morning on their way to St. Joseph.

## SECURE SPEAKERS HERE.

A Number From the Normal Making Commencement Addresses.

That the State Normal faculty is a source from which a large number of the high schools of the district secure their speakers for commencement is quite evident from the number of men from the local school who will deliver addresses within the next week. Here is the list:

H. P. Swinehart at McFall, Wednesday, April 17.  
Dean George H. Colbert at Gilman City, Friday, April 19.  
J. A. Lesh at Craig, Friday, April 19.  
Harry A. Miller at Darlington, April 18.

Dr. Taylor returned this morning from Helena and Holt, where he delivered addresses. On Friday, April 19, he goes to Mercer and Plythedale, where he will address the graduating classes of the high schools.

## PRAISE FOR QUARTET.

What the Daily Enquirer of Carlinville, Ill., Has to Say of Concert.

The following is taken from the Daily Enquirer of Carlinville, Ill., concerning the concert given there last Thursday night by the Normal Male Quartet:

"A large and enthusiastic audience welcomed Prof. P. O. Landon, instructor in music of the Northwest Normal of Maryville, Mo., back to Carlinville again on Thursday evening at the Baptist church.

"Mr. Landon was accompanied by three young men of the Normal, who are receiving their musical education under his tutelage. The audience was warned to receive the performers as college men in the rank of glove club singers. They far outshined this class of vocalists and rendered each selection artistically and spiritedly, and certainly bear high testimony to their instructor.

"The audience, as in times past, listened to the numbers given by Mr. Landon, who is an artist fit to be on the program with our greatest pianists."

The quartet is busy now preparing for their concert for the benefit of the senior class of the local high school at the high school auditorium next Friday night. The public will be delighted to hear that Mrs. F. P. Robinson will sing several selections.

## Moving to Colorado.

Mr. and Mrs. Floyd E. Groves and children of near Pickering came to Maryville Wednesday evening and are visiting at the home of Mrs. Groves' brother, H. L. Rutherford, on East Fourth street. Mr. Groves' father, John Groves, who has been an old resident of Pickering, living for many years northeast of that place, has gone to Salida, Col., with the household goods of himself and his son's family, will follow soon. Floyd Groves and his brother-in-law, H. L. Rutherford, will leave for Salida the first of May with the two Groves automobiles and drive them through. Both are Buicks. Mr. Rutherford expects to move his family to that country later on.

## Brought the Babies Home.

Mr. and Mrs. F. E. Whitchurch returned Wednesday from Savannah, where they went Tuesday evening to accompany home their small son and daughter, who have been away visiting since Friday with their aunt, Mrs. G. A. Council of Barnard and their grandmother, Mrs. C. F. Jackson of Savannah.

## Demings Are in Des Moines.

Mrs. Omar Catterson of this city received a letter Tuesday from Mrs. M. M. Deming, formerly of Maryville, stating that Mr. Deming had been appointed Iowa state manager for the Kansas City Life Insurance company, and that they were now settled permanently in Des Moines, at 715 Twentieth street.

## Returned to Iowa.

Mr. and Mrs. J. P. Cummings and daughter, Helen, returned to their home at Ottumwa, Ia., Wednesday, having been called here by the illness and death of Mrs. Cummings' mother, Mrs. Louis Romasser.

## Sold Residence Property.

Allen Bros. sold Wednesday the M. J. Woods residence property in Northeast Maryville, to E. E. Rinehart.

Sam Duff, Bert Stoneburner and Joe Duffy of Ravenwood were in the city Wednesday.

Mrs. J. H. Gray went to Pickering Wednesday noon to visit her daughter, Mrs. James E. Alexander, Jr.

## MISSOURI IS FIRST

IN MANY PRODUCTS, SAYS SECRETARY WILSON.

## PRODUCES MORE POULTRY

The State Has Improved Farm Acreage of 24,528,000, Worth \$1,445,982,389.

"Missouri leads all other states in the number of fruit trees and also the largest nursery in the world."

"She produces more poultry than any other state."

"She mines more lead and zinc. She produces more barytes and cobalt than does any other state."

"She grows more corn and cotton combined than does any other state."

"She has one county that ships more strawberries than any other county in America."

"Two of her counties produce more corn than is grown in Montana, Wyoming, Arizona, Utah, Idaho, Washington, Oregon, California, Maine, Rhode Island, New Hampshire and New Mexico."

These were some of the things that T. C. Wilson, secretary of the state board of agriculture of Columbia, told the southern industrial congress at its fourth annual meeting at Nashville, Tenn. And he would have taken great pleasure in going into details upon every assertion if time allotted had been sufficient.

"We look with pride on thousands of great chimneys and we hear the songs of countless wheels, telling Missouri's greatness as a manufacturing center, yet it is her farms, her fertile fields, that Missourians most cherish."

"These farms, numbering 276,081, produced in 1911 \$302,091,451 worth of field, orchard and garden products. If to this we add the value of live stock and poultry, the sum reaches \$740,965,085."

"Forty years ago the improved farm land of Missouri consisted of 6,246,871 acres, while that listed as 'unimproved' was estimated at 13,737,939 acres, the value of the 29,000,000 acres was then \$230,632,126."

"Missouri now has an improved farm area of 24,528,000 acres, and the value is \$1,445,982,389. Instead of \$8,711,508 invested in farm machinery, as she had a half century ago, she has \$50,973,994."

"In number of horses Missouri ranks fifth among all states in the Union. Texas alone has more mules. Eight states only have more milch cows."

"In cattle, other than milch cows, Missouri ranks sixth, and boasts of some of the finest bred stock to be found. As a sheep state she ranks eleventh, however, the value of a Missouri sheep is greater than in most states. Only Iowa and Illinois lead her in the production of hogs."

"In poultry Missouri is conceded to lead all other states. The value of Missouri's surplus poultry products for the last year is placed at more than \$45,000,000."

"So rapidly is Missouri advancing along agricultural lines that fifty years is too long for comparison. The figures become too large for human comprehension. Ten years tell a wonderful story."

"While the great wheat producing states have gone backward in the production of that grain Missouri has advanced steadily. She has gained 200 per cent in the production of corn in the last few years. Her possibilities are not limited."

"Truly can it be said that it is great to be a Missouri farmer. No other state has grown so many crops so well. A half century of progress has placed her at the gateway of possibilities. Soon we shall enter into the promised land."

"Missouri is doing more than just producing. In the last twelve months she has voted to improve highways and this is only the beginning. Between the years of 1905 and 1910 Missouri, with two exceptions, improved more miles of roads than any other state in the Union."

"Missouri today has a larger per capita school fund than any other state. Among her many other contributions she furnishes the world with 'pipes of peace.' The annual output of Missouri cob pipe factories reaches the enormous total of 27,000,000."

killed that would in any way injure  
the fruit blossom. The result of his  
excellent care, with the sunshine and  
rain, was a perfect fruit crop.

Mr. Blagg likened the children of  
our homes to the apple trees and the  
work of the Mothers' Circle, the home  
and the teachers to the cultivating and  
the spraying. If it takes care and vig-  
ilance to raise an apple crop, how  
much more careful and painstaking  
must we be in rearing the boys and  
girls to manhood and womanhood, he  
said. He thinks that plenty of fresh  
air and sunshine and exercise is ab-  
solutely necessary, and told the moth-  
ers to go on with their work in spray-  
ing away the evil influences that  
threatened their boys and girls, among  
them the deadly cigarette and the sal-  
oon, "and maybe we onery, dillitory,  
slow fathers will wake up some time  
to a sense of our duty and obligation  
in these things and realize how we  
may help you to accomplish your  
purpose in bringing up your boys and  
girls to clean manhood and woman-  
hood."

"It may take several sprayings,"  
he said, "maybe five times five of  
them, but go on, and we will help you  
all we can."

Mayor Robey was present to lead  
the discussion of Attorney Wright's  
subject.

Mrs. Eliza Howard, who has been  
visiting the family of Ben Howard,  
north of Maryville, and with her  
daughter, Mrs. M. A. Hahn, 908 East  
Fourth street, returned to her home  
in Bolckow Tuesday evening.

Miss Florence Wallace went to  
Pickering Wednesday on account of  
the illness of her grandmother, Mrs.  
William Green.

## WHEN THE CANAL IS OPEN

Will Change Course of Freight Traffic  
Between Europe and Valparaiso,  
Australia and New Zealand.

The Hansa, the organ of the Ham-  
burg ship owners, after consideration  
of the probable effect of the opening  
of the Panama canal upon steamship  
routes, states that after the month of  
June, 1913, should the canal be opened  
to navigation at that time, steamers  
proceeding from Europe to San Fran-  
cisco will no longer go via Cape Horn,  
a route of 13,621 sea miles, but will  
save 6,200 sea miles via the canal  
route. Steamers proceeding from  
Montreal to Sydney now cover 13,694  
sea miles, but in the future will be  
able to do so over a route of 10,952 sea  
miles.

It is difficult to predict the effect  
of the canal upon freight traffic be-  
tween Europe and Valparaiso, the  
Cape Horn route being only 2,100  
miles longer than the canal route.  
Passenger ships probably will pass  
through the canal, serving the east  
coast of South America by means of  
auxiliary ships sailing from West In-  
dian ports.

Trade between Europe and Japan  
will not be influenced by the canal, as  
the Panama route will be 1,000 miles  
longer than the one now followed.  
From New York to Shanghai, on the  
other hand, the difference in favor of  
the canal will be 1,400 sea miles. The  
present route from Europe to Aus-  
tralia is 800 miles longer than the  
route via the canal, which is scarcely  
enough to threaten any great change.  
It is assumed that a part of the busi-  
ness from New Zealand to Europe,  
which today comes via Cape Horn,  
will pass through the canal hereafter,  
saving 1,600 sea miles. The canal  
route will be selected also by passen-  
gers who wish to avoid the rough and  
stormy rounding of Cape Horn. The  
chief part of the steadily increasing  
business between New York and Aus-  
tralia and New Zealand should there-  
fore proceed via the canal rather  
than by the Cape of Good Hope, sav-  
ing 2,300 miles.

### Too Small for a Dog.

The craze for small dogs has caused  
some amusing frauds in Paris. Walk-  
ing down the fashionable side of the  
Avenue de Bois de Boulogne the other  
morning was a man who had sev-  
eral toy dogs for sale. One of the  
smallest was a particularly diminutive  
griffon. A woman asked its price.  
The man made the little dog perform  
several tricks and then fished out a  
little creature scarcely more than  
half the size of the first.

The woman concluded what she  
thought a bargain. She put the little  
one in her muff and, on getting home  
again, pulled him out. For a minute  
the animal showed fear, but then, to  
her great amazement, started toward  
the window and ran up one of the cur-  
tains. After its capture by the serv-  
ants it was found to be a large rat  
sewed up in dogskin.

minutes.

### Needed All He Could Get.

Mr. Flubdub—You women are

### Wednesday Dinner Party.

Mrs. Margaret Curfman and daugh-  
ter, Miss Katharine Curfman, enter-  
tained at dinner Wednesday the fol-  
lowing guests: Rev. and Mrs. J. S.  
Ford and daughters, Misses Meryl and  
Gladys Ford; Rev. and Mrs. W. B.  
Christy and Mr. James F. Colby.

### Skidmore Couple Married.

Alfred Walton and Miss Ella  
Blanche Cook of Skidmore were united  
in marriage at 2:30 o'clock Wednesday  
afternoon at the home of Rev. and  
Mrs. Lee Harrel, Rev. Harrel officiat-  
ing. The bride and groom left at once  
for his farm, near Skidmore. The brid-  
al couple were attended by Miss  
Masters and Mr. Cook of Skidmore.

### Was Miss Condon's Guest.

Miss Charlotte Forrester of Kansas  
City, who was in Maryville Monday  
attending to her office as inspector  
for the state board of charities of  
Missouri, was the Monday evening's  
dinner guest of Miss Georgia Condon.  
Miss Condon and her guest became  
friends during the 1909 session of  
the Missouri legislature, while Miss  
Condon was a committee clerk and  
Miss Forrester was lobbying for a bill  
affecting the Missouri State Nurses'  
association, which was successfully  
passed.

### M. L. Circle Meeting.

Miss Emma Shroyer entertained the  
ladies of the M. L. Circle at her home  
on North Main street Tuesday after-  
noon. The house cleaning season was  
evident in the attendance of the mem-  
bers, only eleven being present, and it  
was the Circle's day for household af-  
fairs. Devotions were led by Mrs.  
Walter Mutz. Roll call was responded  
to with hints on housecleaning. Two  
good papers were given, one by Mrs.  
W. R. Wells, on bread making, and  
one by Mrs. W. A. Bailey on cake mak-  
ing. A paper was to have been given  
by Mrs. F. M. Martin on cooking  
meats, but she was unable to be pres-  
ent, and it was continued to the next  
meeting, which will be held in two  
weeks with Mrs. T. H. Cook, on West  
First street. Miss Shroyer was critic  
at Tuesday's meeting.

### Surprised the Teacher.

Miss Emma Starr, who closed the  
Highland school, four and a half miles  
northeast of Maryville, Tuesday after-  
noon, was very agreeably surprised by  
the patrons of the school, who came  
to school with well filled baskets and  
spread a dinner for the entire com-  
pany that was fit to set before a king.  
The Democrat-Forum was remem-  
bered with some luscious cake from  
the feast. Miss Starr was presented a  
beautiful silk velvet purse by the  
patrons, and from her pupils she re-  
ceived an exquisite cut glass vase. In  
the afternoon the pupils presented a  
varied program of readings, recita-  
tions, dialogues and songs, and Mr.  
and Mrs. A. R. Robinson sang one  
number, and Mrs. Robinson played  
several instrumental pieces. Miss  
Starr appreciated the gathering of the  
school patrons, as she has enjoyed  
her work in the school of this district  
very much.

### Miss Patcher Chosen president.

At the annual meeting of the Twen-  
tieth Century club held Tuesday after-  
noon at the Elks' club, Miss Jessie Patcher  
was chosen president to succeed  
Miss Clara Sturm. When her succes-  
sor took the chair Miss Sturm was  
presented a large bouquet of sweet  
peas in the club colors, lavender and  
white, by Mrs. Ferdinand Townsend,  
on behalf of the club. Mrs. Townsend  
commended the retiring president on  
the impartial spirit in which she had  
served the club. Miss Sturm respond-  
ed gracefully and thanked the ladies  
of the club and the special committees  
for the response they had made to her  
during her term of office, which had  
made it possible for her to render sat-  
isfactory service. The other officers  
chosen were Mrs. M. J. Honnold, first  
vice president; Mrs. M. G. Tate, sec-  
ond vice president; Miss Alma Nash,  
recording secretary; Miss Mae Corwin,  
corresponding secretary; Mrs. Scrib-  
ner Beech, Sr., treasurer; Mrs.  
Charles Jackson, custodian; Mrs. W.  
A. Rickenbrode, auditor. The next  
general meeting of the club will be  
held in two weeks, when the division  
of the departments will occur.

### Will See Maud Adams.

Mrs. Jesse Roberts returned to her  
home in St. Joseph Wednesday morn-  
ing from a week's visit with Mrs.  
Frank Shoemaker. She was accom-  
panied by Miss Esther Shoemaker, who  
will spend a week there with friends  
and see Maud Adams tonight in "The  
Chanticleer."

A marriage license was issued  
Wednesday afternoon by Recorder  
Wray to Alfred Walton and Miss Ella  
Blanche Cook of Skidmore.

**G**REATER than the Metropolitan Opera House; greater than Covent Garden, where the royalty of England is entertained; greater than La Scala at Milan, the Grand Opera House of Paris, and the Royal Opera of Berlin; greater in fact than all the opera houses and places of entertainment in the world, is the seventh floor of Building No. 5—the centre of a city in itself formed by the modern structures of steel and concrete that house the giant industry of the Victor and Victor-Victrola.

To this building in the city of Camden, just across the historic Delaware River from the city of Philadelphia, comes a never-ending procession of the very greatest artists in the whole world. Today it may be Caruso or Amato, and tomorrow it may be Melba, or Tetrazzini, or Schumann-Heink, or Farrar; or it may be several of them assembling to unite in making a masterpiece like the "Sextette from Lucia." Or it may be Paderewski, or Kubelik, or Elman, or Harry Lauder, or Blanche Ring; and then again it might be Sousa and his band, or Victor Herbert and his orchestra.

But whoever it is or whatever the organization, rest assured that within the four walls of this build-  
ing is heard, day in and day out, year in and year out, music in all its forms such as no other place on earth has ever heard.

And unlike music that is heard in any other place, which is only a momentary pleasure ending with its rendition, Victor music lives forever. From its beginning in Building No. 5, it goes through the various processes necessary to its perpetuation and eventually leaves the shipping department (Buildings Nos. 9 and 10) to be heard again and again in hundreds of thousands of homes, just as it is heard in the sacred precincts of the recording room on the seventh floor of Building No. 5.

You can hear some of this exquisite music today. Come in and we'll gladly play your favorite selections. Victors \$10 to \$100. Victor-Victrolas \$15 to \$200. Terms to suit your convenience.

## DON'T PULL OUT THE GRAY HAIRS

A Few Applications of a Simple Remedy Will Bring Back the Natural Color.

"Pull out one gray hair and a dozen will take its place" is an old saying, which is, to a great extent, true, if no steps are taken to stop the cause. When gray hairs appear it is a sign that Nature needs assistance. It is Nature's call for help. Gray hair, dull, lifeless hair, or hair that is falling out, is not necessarily a sign of advancing age, for there are thousands of elderly people with perfect heads of hair without a single streak of gray.

When gray hairs come, or when the hair seems to be lifeless or dead, some good, reliable hair-restoring treatment should be resorted to at once. Specialists say that one of the best preparations to use is the old-fashioned "sage tea" which our grandparents used. The best preparation of this kind is Wyeth's Sage and Sulphur Hair Remedy, a preparation of domestic sage and sulphur, scientifically compounded with later discovered hair tonics and stimulants, the whole mixture being carefully balanced and tested by experts.

Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It refreshes dry, parched hair, removes dandruff and gradually restores faded or gray hair to its natural color.

Don't delay another minute. Start using Wyeth's Sage and Sulphur at once and see what a difference a few days' treatment will make in your hair. This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent, Koch Pharmacy.

## PITTSBURG WOMAN NOT A SUICIDE

Mrs. Summers Probably Murdered and Thrown Into Creek.

SENSATIONAL CHARGES LIKELY

County Attorney Preparing to Issue Another Murder Warrant in Connection With Mysterious Double Tragedy.

Pittsburg, Kan., April 17.—Discovery of the body of Clara Summers which promised to clear up the mystery concerning the death of her husband, Enoch Summers has developed into a mystery itself which is more puzzling than the other. At an inquest held over the wife's body, a demand was made by an attorney representing F. Edgar Anthony, her father, for an examination of the heart.

The attorney did not seek to hide his motive, which was to allege that Clara Anthony Summers was murdered and her body thrown into Cow creek. Dr. C. F. Montee, coroner, and Dr. O. M. Owensby made the examination, and late in the afternoon announced to the jury at the inquest that they had found proof that Mrs. Summers was dead before her body was introduced into the water.

Inquest Adjourned.  
The inquest was adjourned until 10:30 o'clock in the morning. It is probable that sensational charges will be made. The assistant county attorney said during the afternoon that he was ready to issue another murder warrant upon a verdict by the jury charging murder. Rumor has connected certain persons with the tragedy in the Hardman home, where Enoch Summers was found dead.

Martin Knoke, the farmer who found the body, testified that it would have been impossible for the body to have floated down the stream from near town, where it was suggested she jumped into the stream.

Probably Strangled.  
An examination of her new shoes showed they had been worn scarcely any at all and bore no evidence that she had walked the distance.

The doctors who made the examination stated that they found that the bronchial tubes, the right pleural cavity, the mouth and the throat contained a large quantity of blood indicating either strangulation or the piercing of the body by a small instrument such as a hatpin. None of the organs contained water.

## PRISONERS BECAME FIREMEN

When Kansas Jail Caught Fire Jailers Turned Inmates Loose to Help Remove Furnishings.

Columbus, Kan., April 17.—When the county jail caught fire early in the morning from an adjoining livery barn which was in flames, Sam Johnson, jailer, released all his prisoners. They did effective work in removing furnishings from the jailer's apartments and in helping fit up rooms which are being temporarily used as a jail. The damage to the jail will reach \$5,000, which is covered by insurance. The loss on the livery barn and some adjoining buildings is \$3,500, partly covered by insurance. A team of mules and one horse were burned.

## Kansas Bankers at Wichita.

Wichita, Kan., April 17.—When President M. B. Light, of Winfield called the State Bankers' association to order in the Masonic temple this morning he had reason to congratulate the members on the satisfactory attendance. After music by the Wichita Glee club, the bankers were welcomed by Henry J. Allen and Senator J. H. Stewart, the response being by Senator George W. Hanna of Clay Center. Mr. Light then delivered his address and the other officers reported. This afternoon the speakers were William MacFarlan of Topeka, A. M. Householder of Columbus and J. B. Adams of Eldorado.

## Warrant in Marsh Murder.

Lynn, Mass., April 17.—A warrant for the arrest of William A. Dorr on the charge of murdering George E. Marsh, was sworn out by Chief of Police Parkes. This followed his announcement earlier in the day that the police were seeking Dorr in connection with the finding of the body of the wealthy soap manufacturer beside a boulevard in West Lynn last Friday. Dorr's home is in Stockton, Cal., and it was from Chief of Police Briare of that city that the local authorities first received information which led them to trace Dorr's movements.

## Woman Flew Channel Alone.

Calais, France, April 17.—A record for women in aviation was made when Mrs. Florence Griffiths, flying under the name of Mrs. Craig, flew over the English channel in an aeroplane which she operated herself. Mrs. Griffiths set out from Dover and negotiated the channel without incident.

## Crude Oil Up Two Cents.

Independence, Kan., April 17.—An advance of two cents a barrel in the price of crude oil, making the price 64 cents, was announced by the Prairie Oil and Gas company.

## Frost in August

It will be on your milk bottles and on your butter if you buy a Refrigerator at Barbour's South Side Hardware.

## FATHER A PATTERN

BOYS LOVE MOTHERS, BUT IMITATE FATHERS, SAYS COLBERT

## THE EVILS OF TOBACCO

Fisher Explained Effect on System—Athletics as Viewed by Superintendent and President.

The open session of the Mothers' circle at the high school auditorium Tuesday night was not largely attended, but there was a good attendance and the program presented was instructive and enjoyable.

The music was a fine feature. The Maryville orchestra gave four excellent numbers and surprised everyone who had not heard them by their good work.

The solos by Miss Lillian Lindholm and Mrs. F. P. Robinson were very pleasing, as they are among Maryville's favorite singers. Miss Lindholm's contralto voice showed well in her selection, "There is a Land Where the Holy Ones Hath Seen." Mrs. Robinson gave one of her sweet lullaby songs, "When Mommy Rocks Her Little Pickles to Sleep."

The president of the Mother's Circle, Mrs. Eugene Ogden, then spoke a few minutes on "Why a Mother's Circle in Maryville?" giving its aims and purposes briefly as follows; and she also told of the few things the Circle had accomplished during the year of its existence, and was planning to do, which will be told at a later time.

To carry the mother-love and other-thought into all that concerns touches childhood in home, school, church or state; to raise the standards of home life; to develop wiser, better trained parenthood; to bring to closer relation the home and the school that parent and teacher may cooperate intelligently in the education of the child, bring systematic earnest effort to this end through the formation of mothers' clubs and parent-teacher associations in connection with public schools and elsewhere.

To promote the establishment of kindergartens and of laws which will equitably care for neglected and dependent children; to secure such legislation as will insure that children of tender years may not be tried in ordinary courts, but that each town shall establish a juvenile court and special officers whose duty it shall be to care for the child that it shall be rescued from, rather than confirmed evil ways.

To work for such probationary care of individual homes rather than institutions.

To give young people, ignorant of proper care and training of children, opportunities to learn that which will enable them to better perform the duties of parenthood.

To promote high ideals of marriage and the maintenance of its sacredness and permanence.

To interest men and women to cooperate in the work for purer, truer homes, in the belief that to accomplish the best results, men and women must work together.

To rouse the whole country to a sense of its duty and responsibility to childhood.

To surround the childhood of the whole world with that loving, wise care in the impressionable years of life, that will develop good citizens, instead of law breakers and criminals.

The work of the congress is civic work in its broadest and highest sense, and every man or woman who is interested in these aims is cordially invited to become a member and aid in the organized effort for higher national life, which can only be attained through the individual homes.

Dean G. H. Colbert of the Northwest Normal was the next speaker.

His subject was "The Father's Responsibility to the Home and Children." A sentence from a sermon he heard a few years ago had made him think a great deal on that subject, he said, and it was this: "The boy loves his mother, but he imitates his father." Boys seem to disregard their mother in the years they are reaching manhood and trample on her wishes and feelings, but in later years the tenderest expressions of which they are capable are spoken of her. The boy does not always imitate his own father, for it often happens that a good father has a bad son, but the boy imitates the fathers of his own town and neighborhood. Mr. Colbert said that he had been made to know in many ways that he and every other father were not models for their own sons alone, but some boy or boys whom they may not even know are watching them and are being controlled in their actions by what they believe them to be. He told of a boy he had in school once, in the eighth grade, who would not practice his writing lessons. The president of the school board had insisted on the teachers being strict in that study, and told them they were the models in writing for their pupils. This one boy was the only one who refused to practice writing. Mr. Colbert asked his reason for being so stubborn about it, and he said that he expected to have a typewriter some day, and then everybody would read what he had to say (the boy was a miserable scribe), and added: "It isn't necessary for me to write well, because some business men can't write well, for I saw a letter written by Banker So-and-So, and he's the president of our school board, that nobody could read unless he knew what he was trying to say and had read his writing before." The president of the school board was that boy's model, and he had no idea that any boy was watching him and trying to be like him in any way. Mr. Colbert said that the fathers fail to keep up with their boys, they do not progress and put away old things and take on the new with advancing civilization. It is easier to be a boy than it is to become a boy. Let us be a friend with our boys; be "in the gang" with them. In olden times the Spartan father was punished if his son committed a crime. Let us be so careful of our duty and up to our responsibilities that we will not feel that we are to blame for the bad actions of any man's boy.

Prosecuting Attorney George P. Wright was not present to interpret juvenile laws, so Dr. A. T. Fisher, who was to lead the discussion, spoke on the evil effects of tobacco. He said there were between \$50,000,000 and \$750,000,000 worth of tobacco raised in this country every year, when it cannot be scientifically proved that it has any effect but harm on the human body. His explanation of its effects on the different organs of the body was instructive and entertaining. He said the universities and other schools of the country were noting the effect of tobacco on the students, and reports had been gained from them as to the difference it made in them mentally, morally and physically.

Superintendent Hawkins spoke briefly on the value of athletics, a word, he said, that was much abused, and advocated a sane system of exercises and sports that would aid in the education of the children and young people, for they cannot be said to be educated without the development of the whole person; that they may attain and retain that buoyancy and elasticity of spirit that is necessary to them and altogether natural, and comes to them from play on the play grounds. He advocated swings, teeter boards, basket ball and base ball. He said town ball and prisoner on the base could no more satisfy the present generation than the Continental dress and three cornered hat would the men of today.

W. A. Blagg, president of the school board, continued Superintendent Hawkins' subject on athletics, but in a different strain. He based his talk on some things he learned last fall in the orchard of William M. Howden of Skidmore, when he went over to buy winter apples for storage in his cellar. Mr. Blagg was surprised to find the apples fine and sound, as last year was a bad year for the apple crop, and there were very few who had good apples to put away for winter. He asked Mr. Howden how it happened that he had such good apples when no one else had them, and Mr. Howden told him that he was careful to cultivate around the roots of the trees, and that he had sprayed them five times in order to be sure that every insect was

## INTERESTED IN BOYS WILL TALK IT OVER

DR. PUFFER IS TO DELIVER ADDRESS TO NORMAL GRADUATES.

## CLASS SERMON BY PARVIN

The Two Services for Spring Graduating Class to Be Held on May 19 and May 22.

President Taylor has indeed been fortunate in securing Dr. J. Adams Puffer, the eminent author and lecturer, to deliver the commencement address of the spring graduating class of the Normal on the evening of Wednesday, May 22. Dr. Puffer is a man of remarkably wide experience, having taught in country schools, high schools and reform schools, has conducted a summer camp for boys, worked as probation officer of the juvenile court, visited the leading reform and industrial schools of the United States and England, and is director of the Beacon Vacation Bureau of Boston, Mass.

Rev. W. J. Parvin, pastor of the M. E. church, South, will deliver the class sermon on Sunday night, May 19.

## TO START FOUNDATION WORK.

Excavating Work Will Be Finished in Another Week or So—Sheds Are Being Put Up.

The excavating work on the new postoffice site will be finished by Saturday of next week, and then the foundation work will start.

Sheds were being built Tuesday and Wednesday to take care of the tools and machinery. A large cement mixer arrived Tuesday morning and will be used in the foundation work.

## Installation Services Tonight.

Rev. A. M. Reynolds of Albany and Rev. A. D. Selig of Grant City, moderators of the St. Joseph presbytery, arrived in the city Wednesday to take part in the installation services of Rev. S. D. Markness as pastor of the Presbyterian church, to be held this evening. Rev. Reynolds is the guest of Mr. and Mrs. W. J. Staples, and Moderator Selig is visiting with D. E. Hotchkiss and George Demott. Mrs. Selig accompanied Rev. Selig to the city.

## Will Hear London Orchestra.

Director P. O. Landon of the Maryville Conservatory went to Kansas City Wednesday morning to attend a meeting of the executive board of the State Music Teachers' association, of which he is president, and to make arrangements for the program for the coming state meeting in June in Kansas City. Mr. Landon will hear the great London Symphony orchestra tonight and return to Maryville Thursday morning.

## Dr. Taylor at Parnell.

The graduating exercises of the Parnell high school graduating class will be held at the M. E. church in Parnell on Saturday night, and the class address will be given by Dr. H. K. Taylor of the Maryville Normal.

The class will give a play at the opera house on Monday night. The graduating class is composed of Blanche Bloomfield, Ruby Bishop, Anna Hall, Esther Klaas, Harry Simmons, Wilma Millikan and Merrill Anderson.

Miss Belle Leech returned to her home in Pickering Wednesday from a few days' visit with Maryville relatives.

## SPECIAL SESSION OF COUNCIL TO CONSIDER POLICE JUDGE MATTER

## COMMISSION TO MORRIS?

A Number of the City Dads Are Said to Favor Issuing a Commission to Claimant for Office.

A special meeting of the city council has been called for Wednesday evening by Mayor Arthur Robey to consider the police judge matter, and to see what action the city is going to take in case a mandamus suit is filed to make them issue the commission to Squire J. W. Morris.

Many on the board, it is understood, are ready and in favor of issuing the commission to Squire Morris, as they believe the police judge muddle should be settled and are of the opinion that since Morris received a number of votes at the last city election, being the only candidate out, that he is duly entitled to the office.

So far as it looks now everything seems favorable to Squire Morris getting his commission.

## PLAY WAS A SUCCESS.

"The Woven Web" Given by St. Mary's Choir Tuesday Evening Was Well Attended.

"The Woven Web," given by the choir of St. Mary's Catholic church Tuesday evening in the basement of the church, was a success and pleased the good sized audience present. Those taking part in the play were Misses Bertha Kirch, Anna Blatter, Theresa Yehle, Messrs. Anthony and J. W. Blatter, Noah and Paul Thompson, John Gross and Hubert Zech. Between acts singing specialties were given by Misses Theresa Yehle, Bertha Kirch, Alvina Herrick, Arline Hepley, Gertrude Kirch, with Miss Hilda Lahr at the piano.

## Emerson at Elmo and Clearmont.

Prof. R. H. Emerson of the state university at Columbia will deliver the class address to the graduates of the Elmo high school at the M. E. church, South, at that town, Wednesday evening, and to the class at Clearmont on Thursday evening.

The graduates of the Elmo high school are Misses Hazel Livengood, Zelda Hull, Myrtle Colvin, Fern Duncan, Ethel Tibbets, Dorothy Lamar and Samuel Castillo.

## Pickering to Have Same Teachers.

The school board of Pickering met recently and selected the same teachers that have been teaching this year. They are George W. Summerville, principal; Miss Hattie Patterson and Miss Minnie Everhart.

The graduating class of Pickering high school will give their class program on Thursday evening, and the commencement exercises will be held Friday night.

## To See Maud Adams.

Mrs. H. L. Raines and little daughter, Laura Margaret, and Mrs. R. G. Sanders went to St. Joseph Wednesday morning. They will see Maud Adams in "The Chanticleer." Mrs. Raines will be the guest of her sister-in-law, Miss Theodosia Raines, and Mrs. Sanders will visit Mr. Sanders' parents, Mr. and Mrs. W. J. Sanders.

Miss Elizabeth Quinn and Miss Nellie Dieter of Clyde were in Maryville Wednesday morning on their way to St. Joseph.

## SECURE SPEAKERS HERE.

A Number From the Normal Making Commencement Addresses.

That the State Normal faculty is a source from which a large number of the high schools of the district secure their speakers for commencement is quite evident from the number of men from the local school who will deliver addresses within the next week. Here's the list:

H. P. Swinehart at McFall, Wednesday, April 17.

Dean George H. Colbert at Gillman City, Friday, April 19.

J. A. Lesh at Craig, Friday, April 19.

Harry A. Miller at Darlington, April 18.

Dr. Taylor returned this morning from Helena and Holt, where he delivered addresses. On Friday, April 19, he goes to Mercer and Blytheville, where he will address the graduating classes of the high schools.

## PRaise FOR QUARTET.

What the Daily Enquirer of Carlinville, Ill., Has to Say of Concert.

The following is taken from the Daily Enquirer of Carlinville, Ill., concerning the concert given there last Thursday night by the Normal Male Quartet:

"A large and enthusiastic audience welcomed Prof. P. O. Landon, instructor in music of the Northwest Normal of Maryville, Mo., back to Carlinville again on Thursday evening at the Baptist church.

"Mr. Landon was accompanied by three young men of the Normal, who are receiving their musical education under his tutelage. The audience was warned to receive the performers as college men in the rank of glove club singers. They far outshined this class of vocalists and rendered each selection artistically and spiritedly, and certainly bear high testimony to their instructor.

"The audience, as in times past, listened to the numbers given by Mr. Landon, who is an artist fit to be on the program with our greatest pianists."

The quartet is busy now preparing for their concert for the benefit of the senior class of the local high school at the high school auditorium next Friday night. The public will be delighted to hear that Mrs. F. P. Robinson will sing several selections.

## Moving to Colorado.

Mr. and Mrs. Floyd E. Groves and children of near Pickering came to Maryville Wednesday evening and are visiting at the home of Mrs. Groves' brother, H. L. Rutherford, on East Fourth street. Mr. Groves' father, John Groves, who has been an old resident of Pickering, living for many years northeast of that place, has gone to Salida, Col., with the household goods of himself and his son's family. He will follow soon. Floyd Groves and his brother-in-law, H. L. Rutherford, will leave for Salida the first of May with the two Groves automobiles and drive them through. Both are Buicks. Mr. Rutherford expects to move his family to that country later on.

## Brought the Babies Home.

Mr. and Mrs. F. E. Whittechurch returned Wednesday from Savannah where they went Tuesday evening to accompany home their small son and daughter, who have been away visiting since Friday with their aunt, Mrs. G. A. Council of Barnard and their grandmother, Mrs. C. F. Jackson of Savannah.

## Demings Are in Des Moines.

Mrs. Omar Catterson of this city received a letter Tuesday from Mrs. M. M. Deming, formerly of Maryville, stating that Mr. Deming had been appointed Iowa state manager for the Kansas City Life Insurance company and that they were now settled permanently in Des Moines, at 715 Twentieth street.

## Returned to Iowa.

Mr. and Mrs. J. P. Cummings and daughter, Miss Helen, returned to their home at Ottumwa, Ia., Wednesday, having been called here by the illness and death of Mrs. Cummings' mother, Mrs. Louis Romasser.

## Sold Residence Property.

Allen Bros. sold Wednesday the M. J. Woods residence property in Northeast Maryville, to E. E. Rinehart.

Sam Duff, Bert Stoneburner and Joe Duffy of Ravenwood were in the city Wednesday.

Mrs. J. H. Gray went to Pickering Wednesday noon to visit her daughter, Mrs. James E. Alexander, Jr.

## MISSOURI IS FIRST

IN MANY PRODUCTS, SAYS SECRETARY WILSON.

## PRODUCES MORE POULTRY

The State Has Improved Farm Acreage of 24,528,000, Worth \$1,445,982,389.

"Missouri leads all other states in the number of fruit trees and also the largest nursery in the world."

"She produces more poultry than any other state."

"She mines more lead and zinc. She produces more barytes and cobalt than does any other state."

"She grows more corn and cotton combined than does any other state."

"She has one county that ships more strawberries than any other county in America."

"Two of her counties produce more corn than is grown in Montana, Wyoming, Arizona, Utah, Idaho, Washington, Oregon, California, Maine, Rhode Island, New Hampshire and New Mexico."

These were some of the things that T. C. Wilson, secretary of the state board of agriculture of Columbia, told the southern industrial congress at its fourth annual meeting at Nashville, Tenn. And he would have taken great pleasure in going into details upon every assertion if time allotted had been sufficient.

"We look with pride on thousands of great chimneys and we hear the songs of countless wheels, telling Missouri's greatness as a manufacturing center, yet it is her farms, her fertile fields, that Missourians most cherish."

"These farms, numbering 276,081, produced in 1911 \$302,991,451 worth of field, orchard and garden products. If to this we add the value of live stock and poultry, the sum reaches \$740,665,085."

"Forty years ago the improved farm land of Missouri consisted of 6,246,871 acres, while that listed as 'unimproved' was estimated at 13,737,939 acres, the value of the 20,000,000 acres was then \$230,632,126."

"Missouri now has an improved farm area of 24,528,000 acres, and the value is \$1,445,982,389. Instead of \$8,711,508 invested in farm machinery, as she had a half century ago, she has \$50,973,994."

"In number of horses Missouri ranks fifth among all states in the Union. Texas alone has more mules. Eight states only have more milch cows."

"In cattle, other than milch cows, Missouri ranks sixth, and boasts of some of the finest bred stock to be found. As a sheep state she ranks eleventh, however, the value of a Missouri sheep is greater than in most states. Only Iowa and Illinois lead her in the production of hogs."

"In poultry Missouri is conceded to lead all other states. The value of Missouri's surplus poultry products for the last year is placed at more than \$45,000,000."

"So rapidly is Missouri advancing along agricultural lines that fifty years is too long for comparison. The figures become too large for human comprehension. Ten years tell a wonderful story."

"While the great wheat producing states have gone backward in the production of that grain Missouri has advanced steadily. She has gained 200 per cent in the production of corn in the last few years. Her possibilities are not limited."

"Truly can it be said that it is great to be a Missouri farmer. No other state has grown so many crops as well. A half century of progress has placed her at the gateway of possibilities. Soon we shall enter into the promised land."

"Missouri is doing more than just producing. In the last twelve months she has voted to improve highways and this is only the beginning. Between the years of 1905 and 1910 Missouri, with two exceptions, improved more miles of roads than any other state in the Union."

"Missouri today has a larger per capita school fund than any other state. Among her many other contributions she furnishes the world with 'pipes of peace.' The annual output of Missouri cob pipe factories reaches the enormous total of 27,990,000."

killed that would in any way injure the fruit blossom. The result of his excellent care, with the sunshine and rain, was a perfect fruit crop.

Mr. Blagg likened the children of our homes to the apple trees and the work of the Mothers' Circle, the home and the teachers to the cultivating and the spraying. If it takes care and vigilance to raise an apple crop, how much more careful and painstaking must we be in rearing the boys and girls to manhood and womanhood, he said. He thinks that plenty of fresh air and sunshine and exercise is absolutely necessary, and told the mothers to go on with their work in spraying away the evil influences that threatened their boys and girls, among them the deadly cigarette and the saloon, "and maybe we onery, dillitory, slow fathers will wake up some time to a sense of our duty and obligation in these things and realize how we may help you to accomplish your purpose in bringing up your boys and girls to clean manhood and womanhood."

"It may take several sprayings," he said, "maybe five times five of them, but go on, and we will help you all we can."

Mayor Robey was present to lead the discussion of Attorney Wright's subject.

Mrs. Eliza Howard, who has been visiting the family of Ben Howard, north of Maryville, and with her daughter, Mrs. M. A. Hahn, 908 East Fourth street, returned to her home in Bolckow Tuesday evening.

Miss Florence Wallace went to Pickering Wednesday on account of the illness of her grandmother, Mrs. William Green.

### WHEN THE CANAL IS OPEN

Will Change Course of Freight Traffic Between Europe and Valparaiso, Austria and New Zealand.

The Hansa, the organ of the Hamburg ship owners, after consideration of the probable effect of the opening of the Panama canal upon steamship routes, states that after the month of June, 1913, should the canal be opened to navigation at that time, steamers proceeding from Europe to San Francisco will no longer go via Cape Horn, a route of 13,621 sea miles, but will save 6,200 sea miles via the canal route. Steamers proceeding from Montreal to Sydney now cover 13,699 sea miles, but in the future will be able to do so over a route of 10,952 sea miles.

It is difficult to predict the effect of the canal upon freight traffic between Europe and Valparaiso, the Cape Horn route being only 2,100 miles longer than the canal route. Passenger ships probably will pass through the canal, serving the east coast of South America by means of auxiliary ships sailing from West Indian ports.

Trade between Europe and Japan will not be influenced by the canal, as the Panama route will be 1,000 miles longer than the one now followed. From New York to Shanghai, on the other hand, the difference in favor of the canal will be 1,400 sea miles. The present route from Europe to Australia is 800 miles longer than the route via the canal, which is scarcely enough to threaten any great change. It is assumed that a part of the business from New Zealand to Europe, which today comes via Cape Horn, will pass through the canal hereafter, saving 1,600 sea miles. The canal route will be selected also by passengers who wish to avoid the rough and stormy rounding of Cape Horn. The chief part of the steadily increasing business between New York and Australia and New Zealand should therefore proceed via the canal rather than by the Cape of Good Hope, saving 2,300 miles.

#### Too Small for a Dog.

The craze for small dogs has caused some amusing frauds in Paris. Walking down the fashionable side of the Avenue de Bois de Boulogne the other morning was a man who had several toy dogs for sale. One of the smallest was a particularly diminutive griffon. A woman asked its price. The man made the little dog perform several tricks and then fished out a little creature scarcely more than half the size of the first.

The woman concluded what she thought a bargain. She put the little one in her muff and, on getting home again, pulled him out. For a minute the animal showed fear, but then, to her great amazement, started toward the window and ran up one of the curtains. After its capture by the servants it was found to be a large rat sewed up in dogskin.

#### Wednesday Dinner Party.

Mrs. Margaret Curfman and daughter, Miss Katharine Curfman, entertained at dinner Wednesday the following guests: Rev. and Mrs. J. S. Ford and daughters, Misses Meryl and Gladys Ford; Rev. and Mrs. W. B. Christy and Mr. James F. Colby.

#### Skidmore Couple Married.

Alfred Walton and Miss Ella Blanche Cook of Skidmore were united in marriage at 2:30 o'clock Wednesday afternoon at the home of Rev. and Mrs. Lee Harrel, Rev. Harrel officiating. The bride and groom left at once for his farm, near Skidmore. The bridal couple were attended by Miss Masters and Mr. Cook of Skidmore.

#### Was Miss Condon's Guest.

Miss Charlotte Forrester of Kansas City, who was in Maryville Monday attending to her office as inspector for the state board of charities of Missouri, was the Monday evening's dinner guest of Miss Georgia Condon. Miss Condon and her guest became friends during the 1909 session of the Missouri legislature, while Miss Condon was a committee clerk and Miss Forrester was lobbying for a bill affecting the Missouri State Nurses' association, which was successfully passed.

#### M. I. Circle Meeting.

Miss Emma Shroyer entertained the ladies of the M. I. Circle at her home on North Main street Tuesday afternoon. The house cleaning season was evident in the attendance of the members, only eleven being present, and it was the Circle's day for household affairs. Devotions were led by Mrs. Walter Metz. Roll call was responded to with hints on housecleaning. Two good papers were given, one by Mrs. W. R. Wells, on bread making, and one by Mrs. W. A. Bailey on cake making. A paper was to have been given by Mrs. F. M. Martin on cooking meats, but she was unable to be present, and it was continued to the next meeting, which will be held in two weeks with Mrs. T. H. Cook, on West First street. Miss Shroyer was critic at Tuesday's meeting.

#### Surprised the Teacher.

Miss Emma Starr, who closed the Highland school, four and a half miles northeast of Maryville, Tuesday afternoon, was very agreeably surprised by the patrons of the school, who came to school with well-filled baskets and spread a dinner for the entire company that was fit to set before a king. The Democrat-Forum was remembered with some luscious cake from the feast. Miss Starr was presented a beautiful silk velvet purse by the patrons, and from her pupils she received an exquisite cut glass vase. In the afternoon the pupils presented a varied program of readings, recitations, dialogues and songs, and Mr. and Mrs. A. R. Robinson sang one number, and Mrs. Robinson played several instrumental pieces. Miss Starr appreciated the gathering of the school patrons, as she has enjoyed her work in the school of this district very much.

#### Miss Parcher Chosen president.

At the annual meeting of the Twentieth Century club held Tuesday afternoon at the Elks' club, Miss Jessie Parcher was chosen president to succeed Miss Clara Sturm. When her successor took the chair Miss Sturm was presented a large bouquet of sweet peas in the club colors, lavender and white, by Mrs. Ferdinand Townsend, on behalf of the club. Mrs. Townsend commended the retiring president on the impartial spirit in which she had served the club. Miss Sturm responded gracefully and thanked the ladies of the club and the special committees for the response they had made to her during her term of office, which had made it possible for her to render satisfactory service. The other officers chosen were Mrs. M. J. Honnold, first vice president; Mrs. M. G. Tate, second vice president; Miss Alma Nash, recording secretary; Miss Mae Corwin, corresponding secretary; Mrs. Scribner Beech, Sr., treasurer; Mrs. Charles Jackson, custodian; Mrs. W. A. Rickenbrode, auditor. The next general meeting of the club will be held in two weeks, when the division of the departments will occur.

#### Will See Maud Adams.

Mrs. Jesse Roberts returned to her home in St. Joseph Wednesday morning from a week's visit with Mrs. Frank Shoemaker. She was accompanied by Miss Esther Shoemaker, who will spend a week there with friends and see Maud Adams tonight in "The Chanticleer."

A marriage license was issued Wednesday afternoon by Recorder Wray to Alfred Walton and Miss Ella Blanche Cook of Skidmore.

**The greatest musical center in the whole world**

1898

**G**REATER than the Metropolitan Opera House; greater than Covent Garden, where the royalty of England is entertained; greater than La Scala at Milan, the Grand Opera House of Paris, and the Royal Opera of Berlin; greater in fact than all the opera houses and places of entertainment in the world, is the seventh floor of Building No. 5—the centre of a city in itself formed by the modern structures of steel and concrete that house the giant industry of the Victor and Victor-Victrola.

To this building in the city of Camden, just across the historic Delaware River from the city of Philadelphia, comes a never-ending procession of the very greatest artists in the whole world. Today it may be Caruso or Amato, and tomorrow it may be Melba, or Tetrassini, or Schumann-Heink, or Farrar; or it may be several of them assembling to unite in making a masterpiece like the "Sextette from Lucia." Or it may be Paderewski, or Kubelik, or Elman, or Harry Lauder, or Blanche Ring; and then again it might be Sousa and his band, or Victor Herbert and his orchestra.

But whoever it is or whatever the organization, rest assured that within the four walls of this building is heard, day in and day out, year in and year out, music in all its forms such as no other place on earth has ever heard.

And unlike music that is heard in any other place, which is only a momentary pleasure ending with its rendition, Victor music lives forever. From its beginning in Building No. 5, it goes through the various processes necessary to its perpetuation and eventually leaves the shipping department (Buildings Nos. 9 and 10) to be heard again and again in hundreds of thousands of homes, just as it is heard in the sacred precincts of the recording room on the seventh floor of Building No. 5.

You can hear some of this exquisite music today. Come in and we'll gladly play your favorite selections. Victors \$10 to \$100. Victor Victrolas \$15 to \$200. Terms to suit your convenience.

## A WORD WITH WOMEN.

## Valuable Advice for Maryville Readers.

Many a woman endures with noble patience the daily misery of backache, pains about the hips, blue, nervous spells, dizziness and urinary disorders, hopeless of relief because she doesn't know what is the matter.

It is not true that every pain in the back or hips is trouble "peculiar to the sex." When the kidneys get congested and inflamed, there are many such aches and pains and the whole body suffers.

You can tell it is kidney trouble if the secretions are dark colored, contain sediment; the passages are too frequent or scanty. Then help the weakened kidneys. They can't get well alone.

Doan's Kidney Pills have brought sound backs and new life and strength to thousands of suffering women. They are endorsed right in this locality. Read this woman's convincing statement:

Mrs. Martha Partridge, 801 East Fourth street, Maryville, Mo., says: "It was seven years ago when I suffered from kidney and bladder complaint, and my trouble made me weak and nervous. I used Doan's Kidney Pills and received relief. I procured them at Love's drug store (now Love & Gaugh's drug store), and cannot say too much in their praise."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's and take no other.

## MONEY BACK.

Hyomel is Guaranteed to End the Misery of Catarrh, Colds, Sore Throat and Croup.

Get a Hyomel (pronounce it High-o-mel) outfit today.

Pour a few drops from the bottle into the little hard rubber pocket inhaler that comes with each outfit, and breathe it four or five times a day.

Immediately you will know that Hyomel soothes and heals the inflamed and irritated membrane.

But Hyomel does more than soothe and heal; it kills the germs, those persevering pests that are the root of all catarrhal conditions.

A complete Hyomel outfit which includes an indestructible pocket inhaler costs only \$1.00. If you now own a Hyomel inhaler, you can get an extra bottle of Hyomel for only 50 cents at the Orear-Henry Drug Co. and druggists everywhere.

## CARPATHIA HAS ALL SURVIVORS

Hope That Some Might be on Board the Ships Abandoned.

## DIFFICULT TO GET CORRECT LIST

Names as Given Are Practically Complete—Search for Bodies in Vicinity of Disaster to be Continued.

Cape Race, N. F., April 17.—The steamship Carpathia which is believed to have on board all the survivors of the Titanic disaster started to send by wireless to this station the list of the Titanic's survivors. Great difficulty was experienced in getting many of the names correctly, and more than a score of names as made out here did not appear at all on the Titanic's original passenger list, but it is believed that many of them were passengers who had booked at the last moment. The receipt of the list of the first cabin survivors required more than six hours effort.

## The List of Survivors.

Among the second class passengers not included in the first list were:

Widener, Mrs. and valet; Hernot, P.; Ivan, Mrs.

Among the survivors of this supplementary list are:

Hayes, Miss M.; Ostby, Mrs. E. S. White; Mrs. J. S. Flegenheim; Mrs. A. Boank or Blank H.; Smith, Mrs. L. P. or L. T.; Schabert, Mrs. Paul; Cande, Mr. C.

MRS. JOHN J. ASTOR.  
One of the Survivors of the Titanic Disaster.

## List About Complete.

It is thought—feared would be the better word—that this list is now practically complete. As for the rest, direct advices from Sable island reported that weather conditions were good for transmission and that only faint communication was had with the ship, she being barely within range at all.

## Weather is Stormy.

The Virginia Capes, the scout cruisers Salem and Chester, armed with powerful wireless apparatus, are speeding toward the Carpathia and before many hours have elapsed it is hoped they will be in touch with her.

A. hope that some of the Titanic's survivors might be on board the Parisian or the Virginian had to be abandoned when it was learned that neither steamer had picked up anyone from the big liner.

## Search to Continue.

Search for bodies in the vicinity of the disaster will be taken up by the White Star line from Halifax, where the cable steamer Mackay Bennett has been chartered to proceed to the scene and remain until further orders, searching for bodies that may come to the surface.

## MOTHER'S HAIR IS FALLING OUT

Tell Her Parisian Sage Will Quickly Stop It.

## CONGRESS INTO TITANIC WRECK

Washington Prepares to Lessen the Chance of Similar Tragedy.

## MAY ENACT PROTECTION LAWS

Limitation of Size of Vessels and Control of Wireless Communication Probable—President in Conference With Cabinet.

Washington, April 17.—Stirred by the horror of the Titanic disaster all official Washington is preparing for steps to minimize the possibilities of another such tragedy.

Congress began framing legislation to govern life saving appliances and wireless, and President Taft, doubly touched by the probable loss of his friend and military aide, Maj. Archibald Butt, held conference with cabinet officers to consider government control over the operation of wireless.

## MAJOR ARCHIBALD BUTT.

Military Aide to President Taft, probably went down with the Titanic.

In the house what may result in a federal investigation into the causes of the wreck and the enactment of protective measures was begun with resolutions offered by Representatives Mott and Hardwick. The Mott resolution provides for a searching inquiry by the merchant marine committee. The Hardwick resolution provides for life saving apparatus. Under the Mott resolution the merchant marine committee would sit as a court and compel the attendance of witnesses.

## For Smaller Vessels.

Chairman Alexander of the committee declared that the catastrophe would stop the building of such enormous vessels. He favors limitation by law on the sizes of vessels which visit American ports. The committee also expects to report a bill to regulate wireless.

President Taft was in conference at the White house for nearly two hours with some of his cabinet officers whose functions cover the operation of this new system of telegraphy. These were Secretaries Stimson, Meyer and Nagel. Attorney General Wickersham also was called in to give legal advice as to the necessities in a legislative way of additional laws.

In recognition of the extensive interests of private corporations which have spent much in the equipment of ships and shore stations with wireless outfits. Former Attorney General Griggs and Mr. Sheffield, representing the Marconi company, were also consulted, while the technical side of the question was developed by Admiral Cane, the engineer in chief of the navy, which bureau is charged with the management of the naval wireless system.

The discussion was general in character and touched particularly upon the details of a new bill which has been prepared in the navy department to give effect to the requirements of the general wireless telegraphic convention, to which America has recently adhered.

Steamship companies crossing the Atlantic have entered into an agreement to abandon the short northern route in favor of the southern route as long as icebergs were reported in the pathway of the former course.

## Can't Board Carpathia.

Washington April 17.—First hand descriptions of the sinking of the Titanic and the rescue of the 868 survivors will not be made public until after the Carpathia the Cunard liner with the survivors on board docks at New York.

In order that a waiting world might receive the earliest possible information regarding the tragedy, President Taft decided to dispatch the revenue cutter Gresham from Boston with newspaper correspondents aboard to meet the Carpathia, providing the Cunard line was willing to allow them to board the Carpathia.

Advices from Deputy Collector of Customs Stewart at New York, however, state that the steamship line would not grant the privilege.

## DON'T PULL OUT THE GRAY HAIRS

A Few Applications of a Simple Remedy Will Bring Back the Natural Color.

"Pull out one gray hair and a dozen will take its place" is an old saying, which is, to a great extent, true, if no steps are taken to stop the cause. When gray hairs appear it is a sign that Nature needs assistance. It is Nature's call for help. Gray hair, dull, lifeless hair, or hair that is falling out, is not necessarily a sign of advancing age, for there are thousands of elderly people with perfect heads of hair without a single streak of gray.

When gray hairs come, or when the hair seems to be lifeless or dead, some good, reliable hair-restoring treatment should be resorted to at once. Specialists say that one of the best preparations to use is the old-fashioned "sage tea" which our grandparents used. The best preparation of this kind is Wyeth's Sage and Sulphur Hair Remedy, a preparation of domestic sage and sulphur, scientifically compounded with later discovered hair tonics and stimulants, the whole mixture being carefully balanced and tested by experts.

Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It refreshes dry, parched hair, removes dandruff and gradually restores faded or gray hair to its natural color.

Don't delay another minute. Start using Wyeth's Sage and Sulphur at once and see what a difference a few days' treatment will make in your hair. This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent, Koch Pharmacy.

## PITTSBURG WOMAN NOT A SUICIDE

Mrs. Summers Probably Murdered and Thrown Into Creek.

### SENSATIONAL CHARGES LIKELY

County Attorney Preparing to Issue Another Murder Warrant in Connection With Mysterious Double Tragedy.

Pittsburg, Kan., April 17.—Discovery of the body of Clara Summers which promised to clear up the mystery concerning the death of her husband, Enoch Summers has developed into a mystery itself which is more puzzling than the other. At an inquest held over the wife's body, a demand was made by an attorney representing F. Edgar Anthony, her father, for an examination of the heart. The attorney did not seek to hide his motive, which was to allege that Clara Anthony Summers was murdered and her body thrown into Cow creek. Dr. C. F. Montee, coroner, and Dr. O. M. Owensby made the examination, and late in the afternoon announced to the jury at the inquest that they had found proof that Mrs. Summers was dead before her body was introduced into the water.

Inquest Adjourned. The inquest was adjourned until 10:30 o'clock in the morning. It is probable that sensational charges will be made. The assistant county attorney said during the afternoon that he was ready to issue another murder warrant upon a verdict by the jury charging murder. Rumor has connected certain persons with the tragedy in the Hardman home, where Enoch Summers was found dead.

Martin Krooske, the farmer who found the body, testified that it would have been impossible for the body to have floated down the stream from near town, where it was suggested she jumped into the stream.

Probably Strangled. An examination of her new shoes showed they had been worn scarcely any at all and bore no evidence that she had walked the distance.

The doctors who made the examination stated that they found that the bronchial tubes, the right pleural cavity, the mouth and the throat contained a large quantity of blood indicating either strangulation or the piercing of the body by a small instrument such as a hatpin. None of the organs contained water.

### PRISONERS BECAME FIREMEN

When Kansas Jail Caught Fire Jailer Turned Inmates Loose to Help Remove Furnishings.

Columbus, Kan., April 17.—When the county jail caught fire early in the morning from an adjoining livery barn which was in flames, Sam Johnson, jailer, released all his prisoners. They did effective work in removing furnishings from the jailer's apartments and in helping fit up rooms which are being temporarily used as a jail. The damage to the jail will reach \$5,000, which is covered by insurance. The loss on the livery barn and some adjoining buildings is \$3,500, partly covered by insurance. A team of mules and one horse were burned.

Kansas Bankers at Wichita. Wichita, Kan., April 17.—When President M. B. Light, of Winfield called the State Bankers' association to order in the Masonic temple this morning he had reason to congratulate the members on the satisfactory attendance. After music by the Wichita Glee club, the bankers were welcomed by Henry J. Allen and Senator J. H. Stewart, the response being by Senator George W. Hanna of Clay Center. Mr. Light then delivered his address and the other officers reported. This afternoon the speakers were William MacFarlan of Topeka, A. M. Householder of Columbus and J. B. Adams of Eldorado.

Warrant in Marsh Murder. Lynn, Mass., April 17.—A warrant for the arrest of William A. Dorr on the charge of murdering George E. Marsh, was sworn out by Chief of Police Parkes. This followed his announcement earlier in the day that the police were seeking Dorr in connection with the finding of the body of the wealthy soap manufacturer beside a boulevard in West Lynn last Friday. Dorr's home is in Stockton, Cal., and it was from Chief of Police Briare of that city that the local authorities first received information which led them to trace Dorr's movements.

Woman Flew Channel Alone. Calais, France, April 17.—A record for women in aviation was made when Mrs. Florence Griffiths, flying under the name of Mrs. Craig, flew over the English channel in an aeroplane which she operated herself. Mrs. Griffiths set out from Dover and negotiated the channel without incident.

Crude Oil Up Two Cents. Independence, Kan., April 17.—An advance of two cents a barrel in the price of crude oil, making the price 64 cents, was announced by the Prairie Oil and Gas company.
